Promotional Caps Facts

DID YOU KNOW?

Promotional Caps Facts

Promotional caps were first introduced in the agriculture and automotive industries. Ever since, headwear has been a popular branding tool. It is common to co-brand with consumer brands such as Nike in the New Era.

Analysis of headwear indicates:

- 69% of consumers own promotional headwear
- Averages 3,400 impressions over lifetime
- Are kept for an average of 10 months
- A \$7 branded cap has cost per impression (CPI) of \$0.02

Have you ever wondered how shirts are printed at commercial scale? Watch this brief video to see how it's done!

CASE STUDY

Car Dealerships

A car dealership is proud in their customer service. So many recalls so the dealership decided to do something special.

They decided to give chocolate pretzels as a greeting card to customers. It has been with them for Christmas.

Customers continue to be the generous gift which delighted them.
